

## **Communication & events internship**

**Do you believe that we should have a healthier relationship with our phone? And are you looking to put your creative and social skills to work for a game changing app for families by organizing events and other fun activities? Then this is your chance!**

[ChatLicense](#) is the 'driver's license' for smartphones. Children and parents learn how they can best navigate the first smartphone, so they do not get lost in the digital depths. For children, it is a game where they learn all that they need to be smart and safe online, while parents have access to a complete App Guide, Step-by-step plan and the latest news and updates. We are a social enterprise and our mission is to be the first app on every child's first phone. Currently, the app is available worldwide, in both Dutch and English. In the Netherlands, access to the app is free of charge for clients of telecom companies KPN and Odido. We are working to expand our partnerships and global reach in the near future.

Our ideal candidate is eager to think along about how we can spread the word in the Netherlands about this innovative form of education. We have connections with numerous stakeholders, including schools, with whom we work together to keep children safe and smart online when that first moment arrives. You will be the point of contact and help carry out workshops and other events from A to Z. Additionally, you will work on developing and setting up new channels of communication.

*Dream big, get things done* is ons motto.

### **About you**

You are sharp, social, passionate and driven by impact. You are able to adapt to a rapidly changing environment, and are organized, proactive and not afraid to pick up the phone. You also enjoy presenting and engaging with an audience. You also know all about the latest online trends, follow the news and are ready to bring on the action!
